

Manufactured by Agrimm Technologies Ltd, Christchurch, New Zealand

Agrimm®

Biological Crop
Management.

PlantMate
Granular
Rootzone Starter Granule

25kg

A granule for precision application to the root zones of all plants.

Active Ingredients: Proprietary strains of *Trichoderma Atroviride* 1 million cfu/g – selected natural strains are incorporated in a sustained release granule.

APPLICATION	RATE	COMMENT
Nursery Media	1kg to 1m ³	PlantMate Granular should be blended with the growing media before tray or pot filling. PlantMate Granular must be well mixed with the growing media to ensure uniform dispersion before tray filling.
Nursery Propagation	5-10g per tray	Evenly spread at the root zone.
Nursery potting up	1-5g per plant	Apply directly under the roots.
Orchards and Vineyards	1-5g for small plants 5-10g for grapevines	Place directly into the bottom of the planting hole. Use up to 50g per hole depending on size of rootball and planting hole.
Turf	2-5kg per 100m ²	Mix into the top 5cm of soil profile. Ensure granules are well covered with soil/sand.
Bulbs/Tubers	50g/m ²	Apply as even layer below bulbs and tubers at planting.
Soil Sterilisation	50g/m ²	Sterilisation destroys microbial activity creating a vacant niche susceptible to re-invasion by pathogens. Add PMG to repopulate with beneficial bioioculant.
Seed Beds	1kg/20m ²	Mix into the top 5cm of the profile when preparing seed beds.
Field Crops	10-25kg/ha	Apply PMG by direct application to the planting furrow. If the seed is similar size to the granule, the seed and granule may be mixed in the planter box. Alternatively, use a gandy box to apply to the furrow at the same depth.

SAFETY PRECAUTIONS:

Keep out of reach of children. Wear a mask when mixing with water. Store refrigerated but do NOT freeze. Crush the empty sachet and bury in an approved landfill. Do not contaminate the water supply with material or the empty pack.

INDEMNITY CLAUSE:

Notice to Buyer: The manufacturer of PlantMate Granular makes no warranty of any kind on the use of this product and accepts no liability for results from its use whether used in accordance with the label directions or otherwise. Seek independent advice prior to use.
